Photobiological effects in <i>Saccharomyces cerevisiae</i> induced by the monofunctional furocoumarin 4,4',6-trimethylangelicin (TMA) and the bifunctional furocoumarin 8-methoxysoralen (8-MOP)	1
L. Bianchi, A. Bianchi, F. Dall'Acqua and L. Santamaria (Italy)	
Sensitivity to ether anesthesia and to $\gamma$ -rays in mutagen-sensitive strains of <i>Drosophila melanogaster</i>	9
S. Gamo, T. Megumi and E. Nakashima-Tanaka (Japan)	
Isolation of a <i>Bacillus subtilis</i> mutant defective in constitutive $O^6$ -alkylguanine-DNA alkyltransferase	15
F. Morohoshi and N. Munakata (Japan)	
X-Ray sensitivity and single-strand DNA break repair in mutagen-sensitive mutants of <i>Drosophila melanogaster</i>	25
D.R. Oliveri, P.V. Harris and J.B. Boyd (U.S.A.)	
Relationship between pyrimidine dimers, 6-4 photoproducts, repair synthesis and cell survival: Studies using cells from patients with trichothiodystrophy	33
B.C. Broughton, A.R. Lehmann, S.A. Harcourt, C.F. Arlett, A. Sarasin, W.J. Kleijer, F.A. Beemer, R. Nairn and D.L. Mitchell (Great Britain, France, The Netherlands, U.S.A.)	
Evidence to support the existence of efficient DNA double-strand break rejoining in a radiosensitive mutant of V79-4 following irradiation with 250 kVp X-rays or neutrons	41
J.C. Fox (Great Britain)	
DNA-break repair, radioresistance of DNA synthesis, and camptothecin sensitivity in the radiation-sensitive <i>irs</i> mutants: Comparisons to ataxia-telangiectasia cells	49
J. Thacker and A.N. Ganesh (Great Britain)	
Restoration of radiation resistance in ataxia telangiectasia cells by the introduction of normal human chromosome 11	59
K. Komatsu, S. Kodama, Y. Okumura, M. Koi and M. Oshimura (Japan)	
Chromatin-associated DNA endonucleases from xeroderma pigmentosum cells are defective in interaction with damaged nucleosomal DNA	65
D.D. Parrish and M.W. Lambert (U.S.A.)	
Unscheduled DNA synthesis after treatment with 20-methylcholanthrene and <i>N</i> -nitrosodimethylamine in primary culture of human gallbladder epithelial cells	81
K. Miyazaki, M.D. Lü and F. Nakayama (Japan)	
The <i>sin</i> locus of <i>Escherichia coli</i> : a gene involved in SOS-independent repair of mitomycin C-induced DNA damage	85
K.R. Kumaresan and R. Jayaraman (India)	
Differential poly(ADP-ribose) metabolism in repair-proficient and repair-deficient murine lymphoma cells	93
H.E. Kleczkowska, I. Szumiel and F.R. Althaus (Poland, Switzerland)	
Thiol and hydrogen peroxide modification of <i>recA</i> induction in UV-irradiated wild-type and catalase-deficient <i>Escherichia coli</i> K12	101
H.G. Claycamp, K.-K. Ho and C. DeRose (U.S.A.)	
Isolation and partial characterisation of a mammalian cell mutant hypersensitive to topoisomerase II inhibitors and X-rays	111
S.M. Davies, S.L. Davies, A.G. Hall and I.D. Hickson (Great Britain)	
Biochemical and cytogenetical characterization of Chinese hamster ovary X-ray-sensitive mutant cells xrs 5 and xrs 6	119
V. The correlation of DNA strand breaks and base damage to chromosomal aberrations and sister-chromatid exchanges induced by X-irradiation	
F. Darroudi, A.T. Natarajan, G.P. Van der Schans and A.A.W.M. Van Loon (The Netherlands)	
Biochemical and cytogenetical characterization of Chinese hamster ovary X-ray-sensitive mutant cells xrs 5 and xrs 6	129
VI. The correlation between UV-induced DNA lesions and chromosomal aberrations, and their modulations with inhibitors of DNA repair synthesis	
F. Darroudi, A.T. Natarajan and G.P. Van der Schans (The Netherlands)	
Differential cell cycle modulation of human DNA glycosylases against oxidized pyrimidines	137
T. Ganguly and N.J. Duker (U.S.A.)	
UvrABC nuclease complex repairs thymine glycol, an oxidative DNA base damage	147
Y.W. Kow, S.S. Wallace and B. Van Houten (U.S.A.)	

Cyclobutane-pyrimidine dimer excision in UV-sensitive CHO mutants and the effect of the human <i>ERCC2</i> repair gene	157
J.D. Regan, L.H. Thompson, W.L. Carrier, C.A. Weber, A.A. Francis and M.Z. Zdzienicka (U.S.A., The Netherlands)	
A constitutive <i>O<sup>6</sup></i> -methylguanine-DNA methyltransferase of <i>Rhizobium meliloti</i>	165
A. Kaufman and G.C. Walker (U.S.A.)	
Selective repair of specific chromatin domains in UV-irradiated cells from xeroderma pigmentosum complementation group C	171
G.J. Kantor, L.S. Barsalou and P.C. Hanawalt (U.S.A.)	
Wavelength dependence for UV-induced pyrimidine dimer formation in DNA of human peripheral blood lymphocytes	181
S.E. Freeman and S.L. Ryan (U.S.A.)	
Base sequence specificity of a monoclonal antibody binding to (6-4)photoproducts	187
T. Matsunaga, T. Mori and O. Nikaido (Japan)	
Excision-repair capacity in <i>Streptococcus pneumoniae</i> : cloning and expression of a uvr-like gene	195
N. Sicard and A.M. Estevenon (France)	
Is the induction of pyrimidine cyclobutane dimers relevant for the high cytotoxic effect of 7-methylpyrido[3,4-c]psoralen plus UV-A?	203
S. Nocentini (France)	
Human chromosome 9 can complement UV sensitivity of xeroderma pigmentosum group A cells	209
K. Ishizaki, M. Oshimura, M.S. Sasaki, Y. Nakamura and M. Ikenaga (Japan)	
Neutral filter elution detects only limited inhibition of double-strand break repair by 9- $\beta$ -D-arabinofuranosyladenine	217
N.D. Costa and P.E. Bryant (Great Britain)	
<i>Announcement</i>	225
